Scored: EXA8

**I. Scale Description**

The Expectations/Aspirations measure is a 22-item scale developed by Loeber, Stouthamer-Loeber, Van Kammen, and Farrington (1991) for the Pittsburgh Youth Study, which was adapted from instruments developed by the staffs of the Institute of Behavioral Science and of the Rochester Youth Development Study. The measure assesses children's feelings about their goals and activities in life. Specifically, the measure contains questions regarding children's views of how important specific goals are, how far they would like to go in school, how far they think they will go in school, and how likely it is that they will meet specific goals. Each item in the measure which addresses the importance of specific goals ranges from 1 (very important) to 4 (not important at all); each item in the measure which addresses the likelihood of meeting the specific goals ranges from 1 (very likely) to 4 (not likely at all). For two items about schooling, items 7 (how far they would like to go) and 8 (how far they think they will go), the children were offered a range of eight choices from 1 (8<sup>th</sup> grade or less) to 8 (other). For item 21, there were two responses: 1 indicated that the child mentioned a job and 2 indicated that the child responded, "I don't know."

**II. Report Sample**

These analyses were conducted with the first cohort on the control sample (n=155) and on the normative sample (n=387, N = 463 with overlap) during the eighth year of the study. Overall, 78 records were missing the whole measure. Twenty four were missing from the control sample (5 from Durham, 6 from Nashville, 6 from Pennsylvania, and 7 from Washington) and 68 were missing from the normative sample (12 from Durham, 22 from Nashville, 14 from Pennsylvania, and 20 from Washington).

### III. Scaling

#### Subscale scores.

Scoring procedures were used to create three scales for the Expectations/Aspirations Fast Track data. The first scale, Current Importance, measures the importance an individual places on meeting six specific goals. It consists of items 1 through 6. The second scale, Future Expectations I, measures the individual's beliefs in how likely he/she will be in achieving the same six goals included in the Current Importance scale. This scale consists of items 9, 11, 12, 13, 14, and 18. The third scale, Future Expectations II, measure the individual's beliefs in how likely he/she will be in achieving a total of 13 goals, including the six goals from the Future Expectations I scale. This scale consists of items 9 through 20 and item 22. The responses to question 19 (Do you think when you are a grown-up, you will be in trouble with the police?) were reversed to be consistent with the direction of the scale. (Note that items 7, 8, and 21 are not included on any subscales.)

Cronbach's Alpha for Scales			
Variable		Normative	High Risk Control
Y8 EXA Current Importance Scale	(EXA8cur)	0.79	0.80
Y8 EXA Future Expectations I Scale	(EXA8fut1)	0.82	0.82
Y8 EXA Future Expectations II Scale	(EXA8fut2)	0.82	0.82

### IV. Differences Between Groups

T-tests were used to examine group differences for the scales for the total sample (i.e., control vs. normative youth). Analysis of the full sample revealed no significant differences between normative youth and their high-risk control counterparts across scales.

Comparison of Means for Normative and Control								
Variable	Normative		Control		DF	t Value	Pr >  t	
	Mean	Std Dev	Mean	Std Dev				
Y8 EXA Current Importance Scale	(EXA8cur)	1.35	0.35	1.36	0.39	383	0.13	0.8949
Y8 EXA Future Expectations I Scale	(EXA8fut1)	1.44	0.36	1.46	0.41	383	0.50	0.6164
Y8 EXA Future Expectations II Scale	(EXA8fut2)	1.45	0.31	1.49	0.35	383	1.16	0.2454

T-tests were also used to examine group differences for item 7 (How far would you like to go in school?) and item 8 (How far do you think you will go in school?). Analyses revealed that for the normative and high-risk control groups, there are significant differences for these two items ( $p = 0.0003$  for item 7 and  $p < 0.0001$  for item 8). The mean for both items is higher for the normative group than the control group (6.01 versus 5.52 for item 7 and 5.74 versus 5.14 for item 8), which indicates that the normative group not only would like to go farther in school, but also believe that they will go farther in school.

Comparison of Means for Normative and Control							
Variable	Normative		Control		DF	t Value	Pr >  t
	Mean	Std Dev	Mean	Std Dev			
C8AG7 – How far would you like to go in school?	6.01	1.14	5.52	1.48	383	-3.62	0.0003
C8AG8 – How far do you think you will go in school?	5.74	1.22	5.14	1.57	383	-4.13	<.0001

A chi square test was performed on item 21 (What kind of job would you like to get when you grow up?). If the child mentioned a job, it was coded as a 1; if the child responded, "I don't know," it was coded as a 2. The frequency distribution of Item 21 (C8AG21) among the control and normative samples was:

Table of C8AG21 by group			
C8AG21 (What kind of job would you like to get when you grow up?)	Group		Total
Frequency Percent Row Percent Column Percent	Control	Normative	
<b>1</b> <b>(job mentioned)</b>	115 29.87 33.43 87.79	229 59.48 66.57 90.16	344 89.35
<b>2</b> <b>(I don't know response)</b>	16 4.16 39.02 12.21	25 6.49 60.98 9.84	41 10.65
<b>Total</b>	131 34.03	254 65.97	385 100.00
<b>Frequency Missing = 78</b>			

With  $\chi^2 (1, N = 385) = 0.5107, p < 0.4748$ , the hypothesis of independence between risk category (normative or control) and Item 21 was not rejected for these data.

## V. Recommendations for Use

Analysts should be aware that the scoring for C8AG19 (Do you think that when you are a grown-up, you will be in trouble with the police?) is in the opposite direction than the scoring for the other items (C8AG1-C8AG6, C8AG9-C8AG18, C8AG20, and C8AG22). In addition, analysts should be aware that in the scoring for C8AG21 (What kind of job would you like to get when you grow up?), a 1 indicates that the child mentioned a job and a 2 indicates that the child responded, "I don't know."

Analysts should also be aware that the subscale EXA8cur contains six items for current importance and subscale EXA8fut1 contains the corresponding six items for future expectations. These items are:

<u>Current</u>	<u>Future</u>	<u>Subject</u>
C8AG1	C8AG9	well-paying job
C8AG2	C8AG11	good reputation in the community
C8AG3	C8AG12	work hard to get ahead
C8AG4	C8AG13	save money for the future

C8AG5	C8AG14	careful about how much money you spend
C8AG6	C8AG18	happy family life

Subscale EXA8fut2 consists of 13 items regarding future expectations. The additional items in the EXA8fut subscale address having a steady job (C8AG11), having children (C8AG15), being a good mother/father (C8AG16), marrying (C8AG17), being in trouble with the police (C8AG19), staying in touch with parents (C8AG20), and likelihood of getting the job you want (C8AG22).

Analysts should note that the Current Importance Scales (EXA8cur) was positively skewed for both the normative and the high-risk control samples. (Note that for the normative sample, the scale was only slightly positively skewed.) No ceiling effect was noted for these scales.

## V1. Item and Scale Means and SD's

Descriptive Statistics for High Risk Control Sample						
Variable	Label	N	Mean	Std Dev	Minimum	Maximum
C8AG1	How important is it for you to have a well-paying job later?	131	1.23	0.46	1.00	3.00
C8AG2	How important is it for you to have a good reputation in the community?	131	1.37	0.60	1.00	4.00
C8AG3	How important is it for you to work hard to get ahead?	131	1.29	0.56	1.00	4.00
C8AG4	How important is it for you to save money for the future?	131	1.37	0.66	1.00	4.00
C8AG5	How important is it for you to be careful about how much money you spend?	131	1.67	0.81	1.00	4.00
C8AG6	How important is it for you to have a happy family life?	131	1.22	0.50	1.00	4.00
C8AG7	How far would you LIKE to go in school?	131	5.52	1.48	1.00	8.00
C8AG8	How far do you THINK you will go in school?	131	5.14	1.57	2.00	7.00
C8AG9	Do you think that when you are a grown-up, you will have a well-paying job?	131	1.39	0.53	1.00	3.00
C8AG10	Do you think that when you are a grown-up, you will have a steady job?	131	1.50	0.57	1.00	3.00
C8AG11	Do you think that when you are a grown-up, you will have a good reputation in the community?	131	1.58	0.63	1.00	4.00
C8AG12	Do you think that when you are a grown-up, you will work hard to get ahead?	131	1.32	0.54	1.00	3.00
C8AG13	Do you think that when you are a grown-up, you will save money for the future?	131	1.51	0.64	1.00	4.00
C8AG14	Do you think that when you are a grown-up, you will be careful about how much money you spend?	131	1.62	0.76	1.00	4.00
C8AG15	Do you think that when you are a grown-up, you will have children?	131	1.85	0.91	1.00	4.00
C8AG16	Do you think that when you are a grown-up, you will be a good mother/father?	121	1.27	0.47	1.00	3.00
C8AG17	Do you think that when you are a grown-up, you will marry?	131	1.65	0.83	1.00	4.00
C8AG18	Do you think that when you are a grown-up, you will have a happy family life?	131	1.32	0.57	1.00	4.00
C8AG19	Do you think that when you are a grown-up, you will be in trouble with the police?	131	3.76	0.60	1.00	4.00
C8AG20	Do you think that when you are a grown-up, you will stay in touch with your parents?	131	1.34	0.63	1.00	4.00
C8AG21	What kind of job would you LIKE to get when you grow up? (If a job was mentioned, a 1 was entered)	131	1.12	0.33	1.00	2.00
C8AG22	How likely are you to get that job?	115	1.70	0.74	1.00	4.00
EXA8cur	Y8 EXA Current Importance Scale	131	1.36	0.39	1.00	3.00
EXA8fut1	Y8 EXA Future Expectations I Scale	131	1.46	0.41	1.00	2.83
EXA8fut2	Y8 EXA Future Expectations II Scale	131	1.49	0.35	1.00	2.58

Descriptive Statistics for Normative Sample						
Variable	Label	N	Mean	Std Dev	Minimum	Maximum
C8AG1	How important is it for you to have a well-paying job later?	319	1.24	0.50	1.00	4.00
C8AG2	How important is it for you to have a good reputation in the community?	319	1.50	0.64	1.00	4.00
C8AG3	How important is it for you to work hard to get ahead?	319	1.32	0.51	1.00	4.00
C8AG4	How important is it for you to save money for the future?	319	1.28	0.50	1.00	3.00
C8AG5	How important is it for you to be careful about how much money you spend?	319	1.56	0.62	1.00	4.00
C8AG6	How important is it for you to have a happy family life?	319	1.18	0.43	1.00	4.00
C8AG7	How far would you LIKE to go in school?	319	5.87	1.28	1.00	8.00
C8AG8	How far do you THINK you will go in school?	319	5.56	1.37	1.00	8.00
C8AG9	Do you think that when you are a grown-up, you will have a well-paying job?	319	1.42	0.52	1.00	3.00
C8AG10	Do you think that when you are a grown-up, you will have a steady job?	319	1.53	0.59	1.00	4.00
C8AG11	Do you think that when you are a grown-up, you will have a good reputation in the community?	319	1.57	0.57	1.00	4.00
